

Regional Technical Consultants

Business Innovation Support Brief:

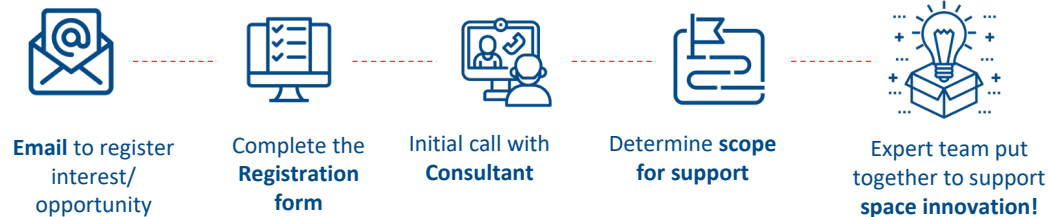

WHAT IS THE OPPORTUNITY?

As part of the **Local Growth Collaboration** between the UK Space Agency and Satellite Applications Catapult, we are thrilled to be offering **tailored business support** to organisations from any sector interested in the commercial benefits of space data and technology for their business.

Delivered by Exotopic and BryceTech, the support is provided across five areas:

- **Earth Observation**
- **In Orbit Servicing and Manufacturing**
- **Launch and Propulsion**
- **Positioning, navigation and timing**
- **Satellite Communication**

WHAT IS THE PROCESS

WHAT SHOULD I DO NEXT?

If you'd like to find out more or book a slot, email Rachel.forster@exotopic.com or complete the [Registration Form](#)

THE SATELLITE APPLICATIONS CATAPULT

Innovating for a better world, empowered by space, the Satellite Applications Catapult offers a wide range of business support and collaboration across the space sector, to find out more email the Business Engagement team (businessengagement@sa.catapult.org.uk) or [click here](#) to find out more.

TERMS AND CONDITIONS

We understand the importance of confidentiality when discussing IP with others, therefore when accessing the support provided by our Regional Technical Consultant's as a beneficiary it is agreed in our Terms and Conditions which state at 6.1 *Both parties shall keep in strict confidence all technical or commercial know-how.* However, due to the nature of the support offered by the Regional Technical Consults we cannot agree to sign Non-Disclosure Agreements (NDAs) to ensure all recipients benefit from the maximum support time as possible.
